

# INFO SYSTEM

PROFESSIONAL WORKSHOP  
INFORMATION SYSTEM

## AUTOCOM INFO SYSTEM

Introducing Info System - the perfect add on to CARS and TRUCKS. Info System gives you thorough descriptions of how to solve the identified problems on the vehicle after the fault reading. It is a highly professional information system for vehicle workshops, developed to fit the requirements of every workshop. You chose between Basic, Plus and Max versions, depending on your needs.

# BASIC

Info System Basic is a basic package with the most essential technical information for the workshop.

auto-com®

## FEATURES

### IDENTIFICATION

- VIN and identification plate locations
- VIN decoder

### MAINTENANCE MODULE

- Maintenance schedules (OEM-based)
- Printable work sheets
- Links to generic parts
- Follow-up tasks
- Additional tasks
- Service times
- Service indicator reset
- Timing belt renewal intervals
- Tyre pressure monitoring system

### ADJUSTMENT DATA

- Ancillary drive belt
- European type approval data
- Emission data
- Tyre sizes and pressures
- Torque settings
- Air-conditioning service connectors

### LUBRICANTS & FLUIDS

- Capacities and viscosities

### RECALL DATA

- Recalls (OEM-based)

### SERVICE BULLETINS (SMARTFIX)

- Technical Service Bulletins
- Link to fault codes and related cases

### ORGANISER XPRESS (COST ESTIMATE TOOL)

- Repairs
- Maintenance
- Parts list
- Total times

### REPAIR MANUALS

- Timing belt; removal/installation
- Timing chain; removal/installation
- Ancillary drive belt; removal/installation
- Clutch; removal/installation
- Manual transmission; removal/installation
- Cooling system; drain/refill
- Cylinder head; removal/installation
- Engine assembly; removal/installation
- Airbag; removal/installation

### REPAIR TIMES

- Overlap technology
- Manual times
- Link to cost estimate tool

BASIC

# PLUS

Info System Plus contains most of the technical data that the modern workshop need. It is a very solid information base developed for the professional workshop.

**auto-com**<sup>®</sup>

## FEATURES

### IDENTIFICATION

- VIN and identification plate locations
- VIN decoder

### MAINTENANCE MODULE

- Maintenance schedules (OEM-based)
- Printable work sheets
- Links to generic parts
- Follow-up tasks
- Additional tasks
- Service times
- Service indicator reset
- Timing belt renewal intervals
- Tyre pressure monitoring system

### ADJUSTMENT DATA

- Ancillary drive belt
- European type approval data
- Emission data
- Tyre sizes and pressures
- Torque settings
- Air-conditioning service connectors

### LUBRICANTS & FLUIDS

- Capacities and viscosities

### RECALL DATA

- Recalls (OEM-based)

### SERVICE BULLETINS (SMARTFIX)

- Technical Service Bulletins
- Link to fault codes and related cases

### ORGANISER XPRESS (COST ESTIMATE TOOL)

- Repairs
- Maintenance
- Parts list
- Total times

### REPAIR MANUALS

- Timing belt; removal/installation
- Timing chain; removal/installation
- Ancillary drive belt; removal/installation
- Clutch; removal/installation
- Manual transmission; removal/installation
- Cooling system; drain/refill
- Cylinder head; removal/installation
- Engine assembly; removal/installation
- Airbag; removal/installation

### REPAIR TIMES

- Overlap technology
- Manual times
- Link to cost estimate tool

### FUSES & RELAYS

- Fuse and relay box locations
- Fuse and relay overview

### TECHNICAL DRAWINGS

- Links to generic parts
- Torque settings

### GUIDED DIAGNOSTICS (VESA)

- Wiring diagrams; Engine Management, Brakes, Airbag and Air conditioning
- Component locations and information

PLUS

# MAX

Info System Max contains all the technical data that the modern and professional workshop might need. It is the perfect choice for the professional workshop that needs everything and that little extra.

**auto-com**<sup>®</sup>

- Fuse and relay overview

### TECHNICAL DRAWINGS

- Links to generic parts
- Torque settings

### GUIDED DIAGNOSTICS (VESA)

- Wiring diagrams; Engine Management, Brakes, Airbag and Air conditioning
- Component locations and information

### COMFORT WIRING DIAGRAMS

- Full colour wiring diagrams covering e.g. climate control, radio, door locks, airbags, anti-theft, headlights
- Pan and zoom functionality
- Highlight functionality to trace corresponding wires and components

### REAL LIFE CASES (SMARTCASE)

- Verified fixes and tips
- Link to fault codes and related cases

### WORKSHOP ORGANIZER

- Work orders / cost estimates incl.
  - Reparationer
  - Underhåll och Service
  - Länk till partskatalog
  - Totala tider
  - Kund- och fordonsdatabas
  - Planeringskalender

# MAX

# QUICK GUIDE INFO SYSTEM

Compare the functions in the three Info System versions Basic, Plus and Max quickly and simply and find the solution that makes your workshop to the best choice for your customers.
